ILLUSTRATED PRICED CATALOGUE—FIFTEEN SHILLINGS

CONDITIONS OF SALE.

FIRST.—The highest bidder to be the buyer; and if any dispute arise between two or more bidders, the lot so in dispute shall be immediately put up again and resold, provided the auctioneer cannot decide the said dispute.

SECOND.—No person to advance less than 1s.; above five pounds 5s.; and so on in proportion.

THIRD.—All lots are put up for sale subject (*a*) to any reserve price imposed by the seller and (*b*) to the right of the seller to bid either personally or else by any one person who may be the Auctioneer.

FOURTH.—The purchasers to give in their names and places of abode, and to pay down 5s. in the pound, or more in part of payment, or the whole of the purchase-money, *if required*; in default of which the lot or lots so purchased to be immediately put up again and resold.

FIFTH.—Each lot is believed to be genuine, but should any lot prove to be a forgery, or reprint, or wrongly described in the catalogue, the purchaser is at liberty to take or reject it, provided always that notice of such rejection be made and the lot returned within seven days from date of sale.

SIXTH.—The Auctioneers will not hold themselves responsible for any action that may arise, acting solely as agents between buyer and seller and for both equitably.

The Auctioneers will not hold themselves responsible for the safe custody of any lots left more than three days after the date of sale.

Please Note.

The metal in which the coins are struck is indicated thus:—

Al = gold, *Æ* = silver, *Æ* = copper or bronze.

El = Electrum (an alloy of gold and silver).

Bl = Billon (an alloy of silver and copper).

Care is taken to describe accurately the condition of coins and medals, using the following scale: *Extremely fine, Very fine, Fine,* and *Good*. Where no condition is stated it may be assumed that the coins and medals are not in good condition.

PREFACE

In our preface to the Owston-Smith Catalogue (Glendining, 1951), we remarked on the scarcity of collections of that particular type which are offered for Auction Sale, and it is significant that seven years have passed before another is made available to the public. The cataloguing of this present collection was, therefore, gladly undertaken as again collectors of foreign coins in this country will have an opportunity of examining and buying pieces which very rarely appear in dealers' lists.

References to Davenport's new work on German Thalers since 1800—a valuable asset to the collector—have been given, but the traditional method of cataloguing the German portion of the Sale has been followed as being the most acceptable form of presentation.

There are many rare and beautiful coins in this collection, and amongst them the following are worthy of especial mention. Lot 140 was described a few years ago in the "Numismatic Circular" as being possibly unique and unpublished. No contrary evidence was offered and this piece is therefore believed to be offered for the first time in an Auction Sale. The Brixen Thaler, 1615, (lot 152) is an extremely fine specimen of the Ecclesiastical series. The series of Brunswick Löser (lots 250-262) is the first to be offered for many years in this country. Lots 492 and 496 are interesting examples of the coins struck by small Princely Houses. In the small section of German gold coins, lots 678 and 678a are of special note. The German New Guinea 20 marks is now in great demand, and an extremely fine specimen recently realized about £112, exclusive of taxes, in a Continental Sale. The medal of Leopold I as Holy Roman Emperor is a very rare and fine example of 18th century work.

The extensive Scandinavian series contain an extremely rare Danish 4 ducats (lot 757) and 4 daler (lot 791). Lot 830, although damaged in excavation, is still quite legible and is a rare piece. The first of the four pieces of plate money (lots 942-945) is a rare piece made from cannon metal instead of the usual copper.

Notable among the Swiss coins is the Schauenstein gold gulden (lot 959) in very fine condition.

As many coins as could reasonably be included have been illustrated to provide collectors with a useful reference catalogue for the future.

PRICED CATALOGUES

Coins

AFTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.

The final test of value must always be auction prices rather than the figures given in books of reference for changing times and fashions soon render the latter obsolete and misleading.

On the average we issue twelve Coin and Medal catalogues a year, some of which are usually of sales of important collections The **priced catalogues** are posted to subscribers as soon as ready, usually about a week after the date of sale and the subscription is . . . .
